Peale, and one of the oldest and most valuable institutions in the United States, will it was this morning decided, be sold out on an execution in favor of the U.S.
Bank trusteeship. Thus it is that the bank has destroyed, one by one some of the best and most reperable institutions of our city. It has long since swept away all
the old fashioned high minded merchants with which
Philadelphis abounded, and substituted in their places
hand of paper credit merchants. These have in turn fallen with the overthrow of the bank, and are succeeded
by a new race considerably better than their immediate
predecessors, but not as good as the old stock, though
promising soon to be so if they go on in the track most
of them now occupy.

Miss Deley, Mr. Gardner and Mr. Brough, appear tonight in "La Somnambula." To-morrow night Miss Logan from the southern theatres, appears as Julia in the Hunchback, and will play every other night, intermitting with the opera, for a week. This plan of Burton, of having the opera every other night and giving our citizens an interval of the "legitimate" by way of variety, is excellent and must succeed.

By the annexed quotations, you will see there is little or no change in the stock market since Saturday.

FROM JAMAICA.—The Atalant, at Charleston, from Kingston, brings the Journal of that place of the 20th Sept. The only items of interest follow:—In consequence of the intelligence respecting the contemplated was between America and Mexico, received by the late arrivals, the provision merchant of this city have become unusually active; business is somewhat brisker than it has been latterly, and great alterations have taken place in the market price of several articles of commerce. Flour, which a few days ago was selling at seven dollars, rose on Wednesday to eight and three quarters. It is stated that the contemplated war has caused some change in the shipping arrangements, and that the sailing of several vessels, which were loading in British ports for this island, has been countermanded, and the Cargoes already shipped discharged.—Chas. Pat. Oct. 10.

FROM HAYTI.—A rumor was atlant at Lewise.

From Hayri.—A rumor was afloat at Jamaica, on the 19th, that Pickle and the Hermes had been sent on to Hayti, is consequence of the expected presence of a powerful French Squadron in the ports of that country for the purpose of enforcing payment of the remaining instalments of the indemnity guaranteed to France. We have learned that the former vessel is gone to Port au Frince and the latter to Aux Cayes, relative to some affairs there, which the British Consul communicated to Commander Allen, of Her Majesty's ship Imaum, the present senior officer at Port Royal, which would require the presence of two British vessels of war at the two ports.—Charleston Patriot, Oct. 10.

MARYLAND ELECTION.-We learn from the Som erset Gazette, that "there was no one elected in that county, as the election was held in three of the districts in one relations of law. in open violation of law. The seats of the returned de-legates will, therefore, doubtless be contested, and they sent back to the people; and in that event it takes no pro-phet to foresee that a full reform delegation will be elected.—Baitimore Argus.

STATE DEPARTMENT.—Information has been re-ceived from the consul of the United States at Naples, of a recent decree of that governmet, making a scale franca or free port, of the harbor of Brindisi.

COMMERCIAL.

Monday, October 13.

Ashrs.—The transactions to-day were limited at our Saturday's quotations.

FLOUR.— The market is yet somewhat flat—holders are anxiously expecting favorable intelligence from Europe by the Great Britain, which is hourly expected; Michi-gan and Ohio from \$4.81\frac{1}{2} a \$4.87\frac{1}{2}.

RIO JANKINO COFFEE—At Auction—Terms, Notes at six months, payable in New York, and be made satisfactory to sellers. 64 bags at 7½ cents per lb.; 799 at 7½; 385 at 7½; 67 at 7½, and 85 at 7½.

CATLE MARKET—At market, 1,459 beef cattle, 30 cows and calves, and 4,000 sheep and lambs.

Prices—Beef cattle are a little easier of sale than last week, and \$4 a \$6 is the range of fair to prime retailing sorts.

Cows and Calves—All taken at \$18 a \$30, which is an advance.

Sheep and Lambs - Lambs remain as before, 75 cents a
\$2 50, while Sheep are dearer, say 87; cents a \$4, for all Hay -\$1 the cwt. is the price for the best loose, at the close.

La Guavaa, Sept 22. 1845 —Business is still very much depressed, and the market overstocked. The market of La Guayra has never been more paralyzed, the little that is sold is generally at a loss. Money is abundant, and business paper not having more than three or four months to run, is easily discounted at per cent a month. Cago suitable for the Spanish market is in good demand; it is not so, however, with regard to the Cago from Augustura, as 800 to 1000 fanegas, which arrived from that port, found no purchasers, and had to be stored.

The current price of flour is \$12 currency, and the stock is very large; I heard of one sale to-day of 300 barrels at \$11, and another of 200 barrels, of good brands, but rither old, at \$9. The last sales of Lard were at 18j a 19; this article is now, however, in rather better demand.

Accounts of the coming Coffee con-sale.

Accounts of the coming Coffee crop are still very flat tering. Hides are scarce, and in great demand at \$89 per quintal, in La Guayra.—Philadelphia U. S. Gazette.

OR falling off of the Hair and Pityriasis, or Dandruff, Scurf, & C., are positively cured by the use of Hill's I.fallible Onguent, which is an old a dwell tried specific for all diseases of the hair or scalp of the head. It is a certain preventive of grey or red hair, or if they do exist, a thorough use of the Onguent will change the color; it will make the hair flexible, inclined to curl, keep it moist longer, and give it a glossier appearance than any other preparation now in use, in which assertion I am fully sustained by the numerous certificate—in my possession, a few of which are annexed. New York, May 21, 1842.

Dear Sir,—A short time since my hair became dry, exceedingly harsh, and finally commenced falling out, which increased to such an alarming extent that it became quite thin, and what remained appeared perfectly lifeless; indeed I was fearful of losing all of it. At last through your permassion. I was induced to try your infallible Onguent, which I am happy to say in a short time caused my hair to entirely cease falling off, assumes moist, soft and glossy nature, and I may add that different members of my family (especially the fenale portion) have used the Ouguent to like purpose with like success.

Yours respectfully.

ASA GARDNER,

ASA GARDNER,
Proprietor of City Hotel. I do certify that I have been seriously afflicted with dandruff undefalling off of my neir for more than five years, and have made use of several articles said to be sure remedies for the same, and found so benefit strising from them, but quite the reverse; family, at the request of Mr. Hill was midaced to try his lofallible Onguent, and the result has been highly satisfactory in removing the candruff, staying the hair, and causing it to grow, and I would recommend any one afflicted with the above to make use of the Ougnent, heimp perfectly satisfied they will reap great benefit from the same. NEW YORK, October, 1844.

Mr. Wm. Hill:

Sir.—Having had the misfortune to lose the greater part of my hair by a gradual falling off during a tour of over four months out West, I was induced by the suggestion of my friends, who had been similarly afflicted, to try your Infallible Osqueut. and to my great joy it has completely restored my hair to more than its original growth; it also makes the hair moist, soft, and gives it a beautiful dressy appearance.

Respectfully,

J. R. SANDERSON,

The science of statistics has only within a recent period been successfully applied to the duration and mortality of disease, and hence tables of rates of premiums on the probabilities of these results could not have been earlier formed, but he statistical data and information most industriously and scientifically collected for this company extending to 291 887 cases, including every malady that afflicts the people of the United States, now warrants the extension of LifeInsurance to all such cases, affording the utmost confidence is the safety of its principles, and in fact to place the application of a system of insurance on DISEASED LIVES on a more secure basis than on healthy ones.

cause, affording the utmost confidence is the safety of its principles, and in fact to place the application of a system of insurance on DISEASED LIVES on a more secure basis than on healthy ones.

The premiums are on equitable terms, commensurate with the risks to be taken for one year or a shorter term, as the case may require. In the case of persons laboring under disease in its various stages, influenced by herreditary predispositions, the effects of climate or accidents, or of various habits or professious producing a defective state of health, in the event of a subsequent restoration to permanent convalencence within the limits of the time assigned in the policy, such restoration when satisfactorily ascertained by the medical board of the company will entitle him to the right of discontinuing the payment of the extra rate and returning to that charged on sound lives.

In addition to the privilege which the Company's charter confers on it of thus is suring INVALID AND INVIRM LIVES they continue to insure HEALTHY LIVES, and to those who wish to avail themselves of the benefits of this admirable plan for providing for thewants and necessaries of those who might otherwise be left destitute, they hold out singular advantages, as from the peculiar plan on which this company is based, in the selection of lives, those who insore here may reasonably expect an ample return for their premums paid in and to share a large portion of profits. The accounts for insuring healthy and invalid lives will be kept separate, as the premiums on the latter are to be paid in money on delivery of the policy. I was called to attend to the above case, in the secondary stage of the disease. I found the patient laboring under complex disease of the lungs and liver; ulceration of the latter had taken place, and by percussion I discovered an abscess had formed in the right lung. The case being apparently hopeleas and beyond the reach of the usual treatment, I resolved at once ou using Thomson's Compound Syrap of Tar and Wood Naptha, the virtues of which I had previously tested, scarcely expecting it would reach a case so desperate. The result is, A CURE THE MOST EXTRAORDINARY, henceforth dispelling all doubts respecting the efficacy of this excellent medicine, in diseases of the lungs and liver.

UN CERTAIN IMPONTANT MALADIES.

THE AUTHOR of the "FRIVATE TREATISE," DR. R. RALFH, begs to state that he is at home as much as possible, (except Sunday) in order to be consulted upon any of the pectified disorders referred to in this intel volume, personally or by post, at his residence, 35 Greenwich street, New York; and especially, to observe that the subject of his cannot be public to the public structure and especially is one with the subject of his cannot and important consequence of diseases—in a former advertisement much pain was taken to explain its nature—the dissass which will enable one

only, is by far the most frequent cause of Stricture. It is not its severity, so much as the length of time its gleety singe may have remained, that is to be considered. Neither is it possible in every case to state how long this may continue without producing Stricture, for one person is naturally more disposed to Stricture than the stricture is to depress the spirits and to be seen mental energy. Not that this is complained of in the same degree by every individual, but it is so common, in one degree or other, that the writer rate that the stricture is to depress the spirits and to be seen mental energy. Not that this is complained of in the same degree by every udividual, but it is so common, in one degree or other, that the writer rate is to depress the spirits and to be seen mental energy. Not that this is complained of in the same degree by every udividual, also is a serious effect; though lattle understood, but it is unquestionably true. Indeed, whoever considers the natural connection of mind and sexual organs, will easily imagine that, as there is a medium by which the mind so powerfully acts upon these organs so, through the same medium the sexual organs react upon the mind. This, however, is better explained in "The Private Treatise" of the author, a little volume which is sent to many parts of the world. As the cure of Stricture proceeds, to activity of mind invariably returns.

With respect to the cure of Stricture-this, it is granfying to state, is generally accomplished in very little time, and without pain or inconvenience. Nothing can exceed the improvement of tate years in the treatment of this complaint. Indeed, in the hands of proper and experienced persons, the cure of Stricture is now accomplished in as many days as formely it demanded months. Many persons consult the writer who come

distance.

In consequence of the number of pretenders and books of quackery which injest this city, he deems it proper to make the following statement, as a satisfactory ground of confidence to strangers. Besides his rank as Graduate of Edinburgh, &c. &c., he has pablished three editions of a work expressly on these complaints. Also, he has letters from the most eminent physicians in Europe to the most eminent in America—as Sir Asiley Cooper, of London, to Dr. Mott, of New York; Dr. Physic, of Philadelphia, and others, and is permitted to refer to almost every Physican of eminence in this city. Address Dr. Ralph, 88 Greenwich street.
